## Profile

I am a mulitdisciplinary designer, with most of my education in print design and my professional experience working on the web. I enjoy investigating complex design problems and developing beautiful solutions.

## Professional Experience

### Graphic Designer...............................................................2011–2017
Enforme Interactive, Frederick, MD

Extensive web design. Working with clients and project managers to achieve their product goals, and turning their feedback into viable design solutions. Managing websites from client needs, concepts, through to a live product. Creating working prototypes for client approval and developer reference. Digital illustration and image creation.

### Design Contractor............................................................ 2010–2011
Enforme Interactive, Frederick, MD

Performing miscellaneous design tasks including logos and page layouts. Completing content entry as needed.

### Freelance Designer.......................................................... 2006–2010
Frederick, MD and Philadelphia, PA

Providing design services including fliers, posters, logos, and business applications.

### Design Services Intern................................................................ 2005
Aetna Design Services in Blue Bell, PA

Working in a corporate design environment. Designing layouts for brochures, advertisements, and mailers. Applying type and imagery to a strict grid system. Participation in design team meetings.

## Education

### Drexel University............................................................. 2002–2006
Philadelphia, PA

Bachelor of Science, Graphic Design
